

SHOWTIME!

In Grade 1AC much of our learning is based around oral discussions and verbal expression of our thinking.

As an additional routine and to encourage confidence in oral language, we introduce...SHOWTIME!

Starting the week of Monday, September 3 your child will be involved in a once weekly presentation.

Presentations will take various forms. They may be in front of the whole class or in small group scenarios. Discussion topics will be linked to class inquiries and presentations need not be more than 2 minutes in length.

Please support this class routine at home by helping your child prepare their response to the weekly discussion topic. At home practice prior to the presentation will help your child's confidence and fluency.

Check out the "Showtime" page on our class blog (<http://glac.weebly.com>) for weekly Showtime topics, including next week's discussion!
